Big Data in Health – Now and into the future

Never Stand Still

Medicine

Centre for Big Data Research in Health

The Centre for Big Data Research in Health is pleased to invite you to a panel discussion about the present and future direction of how big data is harnessed to improve health outcomes, facilitated by CBDRH Director, Prof Louisa Jorm. The aim is to promote idea exchange and provide an insight into approaches for using large datasets in health research.

Big Data in Health – now and into the future

Panellists include:

Prof Louisa Jorm, Centre for Big Data Research in Health

Prof Tony Butler, Kirby Institute

Dr Mark Larsen, Black Dog Institute

Dr David Vaile, School of Law

Dr Jason Wong, Lowy Cancer Research Centre

Please feel free to share this invite with interested colleagues.

Date: Friday 4th December 2015, 3:30 – 4:30pm, followed by light refreshments

Location: Lecture Theatre 5, Central Lecture Block (E19), UNSW Kensington

RSVP: CBDRH.Events@unsw.edu.au by 27th November 2015

The **Centre for Big Data Research in Health (CBDRH)** in the Faculty of Medicine was established in November 2014, and aims to improve the health of the population through research using large-scale electronic data that integrates information about biology, clinical care, health services and the social and physical environments.
